

Data Categories

mainstruct	substruct	datcat	media	annotations	texts	lexica	lists	comment	IMDI	DC/OLAC
ID								identification		
		Name	x	x	x	x	x	name of the metadata resource representing the linguistic resources	session.name	
		Title	x	x	x	x	x	short form of the name	session.title	DC.title
		PID	x	x	x	x	x	ID of the metadata resource	METATRANSRIPT ArchiveHandle attribute	DC.identifier. Bibliographic Citation
		Url	x	x	x	x	x	URL of the metadata resource	--	DC.identifier
		Version	x	x	x	x	x	version of the metadata resource	--	
		CreationDate	x	x	x	x	x	date of the creation of the metadata description	METATRANSRIPT Date attribute	DC.date.created
		MetadataProfile	x	x	x	x	x	ID of the metadata profile that is used for the creation of this description	METATRANSRIPT Originator attribute	
		MetadataCreator	x	x	x	x	x	the person that created the metadata description version - could be an aggregation of elements (see below)	--	DC.creator
		LanguageIn	x	x	x	x	x	a language descriptive elements such as for example "description" is in	--	DC.language.olac:language
		Description	x	x	x	x	x	prose text element that can appear anywhere in the metadata resource	session.*.description	DC.description
access								aspects related with accessing resources		
	contact	FullName	x	x	x	x	x	name of the person to be contacted for accessing the language resource	session.resources. X.access.{contact. Name,owner,publisher}	DC.publisher
		Address	x	x	x	x	x	address of that person	session.resources. X.access.contact. address	
		Email	x	x	x	x	x	email address of that person	session.resources. X.access.contact. email	
		TelNumberIn	x	x	x	x	x	telephone number of that person	--	
		FaxNumber	x	x	x	x	x	fax number of that person	--	
		Organization	x	x	x	x	x	organization responsible for accessing the resource and probably the person is part of	session.resources. X.access.contact. organisation	
		Url	x	x	x	x	x	URL of the organization and/or the person	--	
		LegalStatus	x	x	x	x	x	description of the ownership about the resource	--	
	distribution	Availability	x	x	x	x	x	some prose information about the terms of availability of the resource	session.resources. X.access.availability	DC.rights.access rights
		License	x	x	x	x	x	open vocabulary describing the license conditions	--	DC.rights.license (URI)
		Medium	x	x	x	x	x	open vocabulary describing the medium used to exchange the resource		DC.format.medium
		Price	x	x	x	x	x	price of the resource or of accessing fragments of the resource	--	
		DocumentUrl	x	x	x	x	x	pointers to additional information describing the resource such as manuals, papers etc	--	
		Samples	x	x	x	x	x	pointers to samples where the resource is used	--	
creation								aspects related with the creation process		
	project	ProjectName	x	x	x	x	x	name of the project that was leading to the resource	session.project.name	
		ProjectTitle	x	x	x	x	x	short title of the project	session.project.title	
		ProjectId	x	x	x	x	x	ID of the project	session.project.ID	

Data Categories

		Organization	x	x	x	x	x	organization responsible for running the project	session.project. contact.organisation	
		Address	x	x	x	x	x	address of that organization	session.project. contact.address	
		Email	x	x	x	x	x	emailaddress of the organization	session.project. contact.email	
		Funder	x	x	x	x	x	name of the funder of the project	-	
	location	LocationAddress	x					address of the location where the resource was created	session.location.address	
		LocationCountry	x					country of that location	session.location.country	
		LocationContinent	x					continent of that location	session.location.continent	
		LocationRegion	x					region of that location	session.location.region	
		GeoCoordinates	x					geographic coordinates of that location		
	dates	CreationDate	x	x	x		x	date of the creation of the resource	session.recording date	DC.date.created
		PublicationDate	x	x	x	x	x	date of the publication of the resource	session.resources.X. access.date	
		StartYear		x	x	x	x	starting year of the creation process		
		CompletionYear		x	x	x	x	completion year of the process		
		UpdateFrequency			x	x	x	frequency with which a resource is updated		
		LastUpdate			x	x	x	date of the last update		DC.date.modified
	process	AnnotationMode		x				mode of annotation of the resource (automatic, manual)		
		AnnotationType		x				is the annotation created in standoff or inline manner		
		AnnotationTool		x				tool with the help of which the annotation was created		
		AnnotationWorkflow		x				workflow describing the creation process		
		InterannotatorAgreement		x				indication of interannotator agreement		
		CreationTool				x	x	tool with which the resource was created		
		DerivationDate				x	x	in case that a resource is based on a derived form the date of derivation is specified		
		DerivationMode				x	x	the mode of derivation is specified		
		DerivationType				x	x	the type of derivation is specified		
		DerivationTool				x	x	the tool with which the derivation was created		
		DerivationWorkflow				x	x	the process of the derivation step		
	function	ApplicationDomain		x	x	x	x	domain of application the resource is intended for		
		DeploymentTool		x	x	x		a specific tool for which a resource was created (i.e. Parser)		
	origin	OriginalSource	x	x	x	x	x	reference to the original or source document	session.resources.source.X	
		HarvestingDate			x		x	date when the copy was taken from the original		
		BibliographicReference			x		x	this is a block of elements describing typical bibliographic information		
	actors	CreatorRole	x	x	x	x	x	role of the creating person	--	
		Organization	x	x	x	x	x	organization of the creating person	--	
		FullName	x	x	x	x	x	name of the creating person	--	
		LinguisticSubject			x	x		linguistic subject as described by OLAC	--	DC.subject. olac:linguistic-field
		Description	x	x	x	x	x	see above	session.actors.description	
content								aspects that describe the content of resources		

Data Categories

	languages	LexiconType				x		describes the type of the lexicon (wordlist, wordnets, multilingual etc)		
		NoLanguages	x		x	x	x	number of languages included in the resource		
		LanguageName	x	x	x	x	x	name of the language that is included in the resource	session.content.languages.X.name	
		LanguageID	x	x	x	x	x	ID (ISO 639) of the language included	session.content.languages.X.ID	
		LanguageScript		x	x	x	x	script in which language is expressed	--	
		DominantLanguage	x		x			name of the dominant language	session.content.languages.X.dominant	
		SourceLanguage	x		x	x		name of the source language	session.content.languages.X.source	
		TargetLanguage	x		x	x		name of the target language	session.content.languages.X.target	
		MetaLanguage				x		metalanguage that is used for example in the lexicon	--	
		Dialect	x		x			dialect occurring in the resource (not yet standardized)	--	
		SizePerLanguage			x	x	x	amount of material per language in the resource	--	
	content	Genre	x		x		x	genre of the content of the resource	session.content.genre	
		Subgenre	x		x			sub-genre as specified in IMDI	session.content.subgenre	
		Topic	x		x		x	topic of the content	session.content.subject	
		Domain			x	x	x	domain of the resources - holds more for the aggregation level	--	
		Task	x					typical task description involved	session.content.task	
		Modalities	x			x		modalities involved in the resource	session.content.modalities	
		MediaExtensions				x		pointer to media extensions	--	
		GeographicCoverage			x	x	x	geographic coverage as defined in DC		DC.coverage.spatial
		TimeCoverage			x	x	x	time coverage as defined in DC		DC.coverage.temporal
	interaction	Register	x					register as specified in IMDI		
		Interactivity	x					register as specified in IMDI	session.content.communicationcontext.interactivity	
		PlanningType	x					planning type as specified in IMDI	session.content.communicationcontext.planningtype	
		Involvement	x					involvement type as specified in IMDI	session.content.communicationcontext.Involvement	
		SocialContext	x					social context as specified in IMDI	session.content.communicationcontext.Social context	
		EventStructure	x					event structure as specified in IMDI	session.content.communicationcontext.Event structure	
		Channel	x					channel as specified in IMDI	session.content.communicationcontext.Channel	
		VocabularySize	x					size of the vocabulary in the resource	--	
		StructuralUnits					x	structural units marked up such as words, sentences etc	--	
	theory	Tagset		x				tagset used to tag the resource	--	
		TagsetLanguage		x				the language of the tag set	--	

Data Categories

		TierType		x				type of the tier (translation, transcription, morphosyntax etc)	--	
		TheoreticModel		x				reference to theoretic model underlying the work	--	
	lexicon info	LexicalUnit				x		type of headword in the lexicon (lemma, wordform, idiom, etc)	--	
		MainLevelInformation				x		information about the main level of lexical information (orthography, pronunciation, morphology etc)	--	
		SubLevelInformation				x		information about the sub-level of information dependent on the main level	--	
		SchemaReference			x	x	x	reference to the schema according to which the lexicon is built	--	
		Delivery			x	x	x	format in which the resource is delivered	--	
resources								technicalities of resources		
		PID	x	x	x	x	x	PID referring from the metadata description to the resource it describes	ArchiveHandle attribute from session.resources.X.resourcelink	
		URL	x	x	x	x	x	URL pointing to the resource	session.resources.X.resourcelink	
		Size	x	x	x	x	x	size of the resource	session.resources.X.size	
		Unit	x	x	x	x	x	units of the size indication (wide range dep on type)	--	
		Duration	x					duration of the recording	--	
		Resolution	x					resolution in the case of images or movies	--	
		Samplerate	x					sample rate in the case of time series	--	
		SizePerLanguage				x		in case that several languages are involved a size indication	--	
		SizePerRepLevel				x		size per representation level (i.e. Number of syntactic units, number of semantic units etc.)	--	
		StructuralUnits			x			structural units that are marked up (paras, chapters etc)	--	
		MediaType	x			x		type of medium of the resource (audio, video, eye tracking, etc)	session.resources.mediafile.type	
		MimeType	x	x	x	x	x	mime type description of the resource	session.resources.Mediafile.format	
		AnnotationFormat		x				format in which the annotation is created	session.resources.writtenresource.format	
		CharacterEncoding		x	x	x	x	character encoding used to encode texts	session.resources.writtenresource.characterencoding	
		CharacterSet		x	x	x	x	character set used to encode the texts	--	
		CaptureMethod	x	x	x	x	x	method with which a digital version was created	--	
		Quality	x			x		a notion of the quality of the resource	session.resources.mediafile.quality	
		Condition	x					a notion of the technical recording conditions	session.resources.mediafile.recordingconditions	
		Enviroment	x					a notion of the environment in which the recording was created	--	
		AnonymizationMethod	x					method of anonymization used (see IMDI)	session.resources.Anonyms.resourcelink	
		Validation	x	x	x	x	x	is the resource validated or not	--	
		ValidationType	x	x	x	x	x	formal evaluation or content evaluation or both	--	
		ValidationMethodology	x	x	x	x	x	method of validation (automatic, manual)	--	

Data Categories

		ValidationLevel	x	x	x	x	x	full or partial validation	--	
		Segmentation	x			x		is meant as "derived from" with time pointers (see IMDI)	--	
		SegmentationMethod	x					was the segmentation manual or automatic	--	
participants								aspects that describe the actors in the resources		
		ParticipantRole	x	x				role of the participants acting in the resource	session.actors.X.role	
		Name	x	x				short name of the participant	session.actors.X.name	
		FullName	x	x				fullname of the participant	session.actors.X.fullname	
		Code	x	x				code used in the annotations	session.actors.X.code	
		SocialFamilyRole	x	x				social/family role of the participant	session.actors.X.FamilySocialRole	
		EthnicGroup	x	x				ethnic group of the participant	session.actors.X.ethnicgroup	
		Birthdate	x	x				birthdate of the participant	session.actors.X.birthdate	
		Age	x	x				age of the participant	session.actors.X.age	
		Sex	x	x				sex of the participant	session.actors.X.sex	
		Education	x	x				education of the participant	session.actors.X.education	
		Profession	x	x				profession of the participant	--	
others										
		Relations	x	x	x	x	x	relations to other resources		DC.relation
		AnonymizationFlag						(see IMDI)	session.actors.X.anonymized
